Panopto Overview

- What is Panopto
- What you need to Record with Panopto
- How does it work
- User Roles
- Recorder Access
- Request for Panopto
What is Panopto?

- Software-based application that provides users with the functionality they need
  - capture,
  - edit,
  - archive
  - repurpose institutional media with one integrated, easy-to-use software solution.
  - all in a digital, searchable format that empowers viewers to watch recordings, take notes and zero in on pertinent information.
What do you need to use Panopto?

- **To Record and Edit:**
  - Computer with Software Panopto Recorder
  - Microphone for Audio
  - Camera for Video (optional)

- **To View and Manage:**
  - Computer with Internet Access – see viewing system requirements
How does it work?

- Capture / Record
  - Record using Software Download, Microphone, Video (optional)

- Publish
  - Automatic rendering – when connected to server
  - View a recording- Internet Access to the web based server

- Manage
  - Web Server – stores recordings
  - Server on site – UICOMP
  - Web based administration console with set user permissions
    - Administrative
    - Videographers
    - Presenters
    - Viewers
Content can be recorded from any location.

Workflow:
- Presenter in Office
- Recorded content sent to server
- Archived recording sent to Viewer on-the-go
- Live or archived recording sent to Viewer at Home
User Roles

- Administrative – minimum#
- Videographer – limited#
- Presenter – Some
- Viewer - Most
Installing the Recorder

- The software is already installed and will automatically open when the computer is started on the following computers:
  - A100-1
  - CAT Lab Main Computer
  - CIS Laptop

- Your UICOMP Computer – submit Perfect Tracker Ticket
Panopto Installation Request

- Submit Perfect Tracker Ticket with the following:
  - First Name (requesting installation)
  - Last Name (requesting installation)
  - Department Name
  - Name of folder you would like created to record to (e.i. Faculty Development, Training, etc.)
  - A list of names (first and last) you would like to have access to view the recordings.
Examples

- Recording Examples
  - Healthy Living – Public
  - M2 Lectures - Secured
  - Pre-recording

- Equipment Examples
  - Audio Examples
  - Video Examples
Recording Examples

- Live recording
  - Healthy Living Example – Dr. Alfred George
  - Family History – Public

- Pre-recorded
  - Panopto How to Video’s

- Multiple Camera’s
  - Rager Lab demo
Equipment Examples

- Audio Options
- Video Options
Microphone Examples

- Microphones
  - SHURE Wireless Microphone - Old mic from A100-1 - Example
  - Revolabs xTag – reserve through CIS – Example
  - Revolabs Dual Wireless Mics – (A100-1) - Example

- Recommended mics – Equipment Guide
Video Options

- Primary Video Option
- Additional Video Source
- Multiple Video Sources – Demo of the Rager Lab
- Panopto How to Videos – more to come

Setting Tab Overview

- Basic Settings – set when recorder is installed
- Advanced – Access by Admin only
Configuration options for the Recorder are shown below. Windows administrative privileges are required to change the recording directory and background upload properties, and CourseCast administrative privileges are required to change settings in the "Advanced Settings" tab.

**System Settings**
- **Recording Directory:** c:\PanoptoRecorder
- **Upload when recorder is closed:**
- (Recorder runs as a Windows service)

**Application Settings**
- **Recording Quality (Default):**
  - Web Ready - (135 MB/hr, 320x240 VC-1 video in ASF)
  - High Quality Compressed - (540 MB/hr, high-resolution VC-1 video in ASF)
  - Archival DV - (13 GB/hr, DV video in AVI)
- **Automatically Upload Recordings:**
- **Show Help Messages:**
Record a Session — connected to server

- Create New Session Tab
- Find Folder
- Name the session
- Select Sources
- Open PPT
- Record
Create New Recording

Please select the inputs that you wish to record. The primary stream determines the duration of your recording, and is typically used for video and/or audio of the presenter. Additional capture devices can become secondary streams, such as whiteboards, blackboards, and document cameras. Multiple Panopto Recorders can record to the same session simultaneously.

Record using these settings:

Folder Name: Test 10: Test Folder
Record a new session called: Monday, April 19, 2010 at 1:45:08 PM

Primary Source
Video: None
Audio: None

Other Capture Sources
- [ ] Capture PowerPoint
- [x] Capture Screen
- [ ] Add Another Video Source

Broadcast and Record
Please select the inputs that you wish to record. The primary stream determines the duration of your recording, and is typically used for video and/or audio of the presenter. Additional capture devices can become secondary streams, such as whiteboards, blackboards, and document cameras. Multiple Panopto Recorders can record to the same session simultaneously.

Record using these settings:

- Folder Name: Test 10: Test Folder
- Record a new session called: Monday, April 19, 2010 at 1:45:08 PM

Offline recording

- Same as basic recording except you are not connected and it will not upload automatically at the end of the recording.
Please select the inputs that you wish to record. The primary stream determines the duration of your recording, and is typically used for video and/or audio of the presenter. Additional capture devices can become secondary streams, such as whiteboards, blackboards, and document cameras. Multiple Panopto Recorders can record to the same session simultaneously.

Record using these settings:

Folder Name: Test 10: Test Folder

Record a new session called: Wednesday, April 21, 2010 at 10:30:40 AM

Record to a Session
Click ‘Record to this Session’ for the session you want to record.

Test 10: Test Folder (0 Sessions)

Select offline recording when you have no network connection or your server is unreachable. When recording offline, you will be able to upload your recording at a later time.

# Recorded Sessions

All sessions recorded on this computer are shown below. Offline recordings have not been uploaded and are only stored on this computer. Uploading recordings are in transit to the server, and uploaded recordings are either processing on the server or are ready to view, edit, or share. These are stored on the server and can be safely deleted from the local hard drive using the delete button.
